Compare Quick Trade & Coinsquare

16 days ago · Updated

Follow

The new Quick Trade app is here! Since the new app requires a separate account, you might be asking why you would use the new app.

Who should use the new app?

- You aren't using Advanced Trade
- You only buy and sell the most popular coins (BTC, ETH, BCH, LTC, XRP)
- You prefer to use the mobile app to trade
- You want instant e-Transfer deposits and lower fees

A new account is required to use the new Quick Trade app.

Get started in as little as five minutes with our simplified sign-up and ID verification experience.

The tables below provide a detailed comparison of the two products. You may choose to stick with Coinsquare or use both.
